Ember MIPS Helmet, Chrono Sport Sublimated Jersey, Chrono Sport Halter Bib Short, Jag'ette Glove, HRc Team Sock, Raes Techlace Shoes

APPAREL FOR ROAD

YOUR PERSONAL BEST

The Chrono road apparel collection provides the foundation you need to go farther and faster on the bike. Cutting-edge fabrics are combined with engineered fit, modern fabrication and meticulous detail to maximize your comfort and efficiency, so you can focus on achieving your best.

APPAREL FOR DIRT

REDEFINING LIMITS

The mountain bike apparel collection is defined by your imagination, not convention. This is a fresh approach to mountain bike apparel, with fit and fabrication rooted in trail riding, plus modern performance materials and a dash of surf-inspired design that moves with you effortlessly.

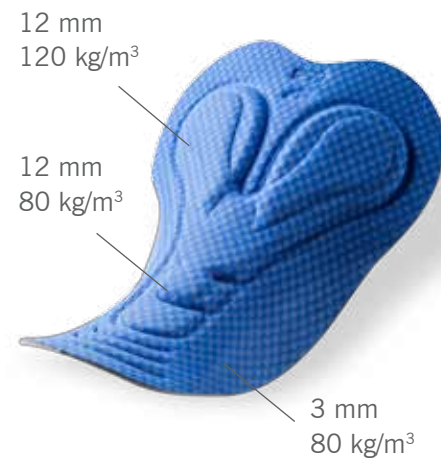

COMFORT AT THE POINT OF CONTACT

A proper cycling short is important because it provides a comfortable, supportive connection with the saddle that is essential for longer rides.

WOMEN'S CHRONO EXPERT CYTECH CHAMOIS

Advanced technology and construction, designed to provide comfort and support for longer distance and off-road rides. We use a thermoformed open cell padding bonded with a three-dimensional "Coolcube" bacteriostatic microfiber top for a cool feel and quick drying performance while preventing chaffing and irritation. Three zones use strategically placed foam densities for ultimate comfort and support, ranging from very high-density to ultra high-density foam.

**DURATION OF RIDE:
UP TO 5 HOURS**

WOMEN'S ANATOMIC FEATURES:

A women's-specific-chamois with a strategically placed pelvic track for optimal support and pressure relief in ischial and perineal areas, plus a very accurate fit for comfort and protection.

PAD PROFILE AND DENSITY:

3mm thick perimeter zone with very high-density 80kg/m³ foam, a 12mm thick insert zone with ultra high-density 120kg/m³ foam, plus very high-density 80kg/m³ foam for enhanced support with stability in the saddle.

WOMEN'S CHRONO SPORT CYTECH CHAMOIS

Designed around the female anatomy, this minimalist design provides supple, continuous contact with the skin. We use a thermoformed open cell padding, bonded with a bacteriostatic, soft-brushed microfiber top. Two zones use strategically placed foam densities for comfort and support, ranging from high-density to very high-density foam.

**DURATION OF RIDE:
UP TO 3 HOURS**

WOMEN'S ANATOMIC FEATURES:

The women's chamois is designed with a center channel on the underside for support and pressure relief, and a flat top side to ensure comfort and protection.

PAD PROFILE AND DENSITY:

3mm thick perimeter zone with very high-density 80kg/m³ foam, and 11mm thick insert zone with high-density 70kg/m³ foam for support and stability in the saddle.

MEN'S CHRONO PRO CYTECH CHAMOIS

An innovative fusion of the latest technology and construction, designed for a balance of comfort, support and performance for your longest rides or aggressive off-road rides. Anatomically stitched open cell padding with a three-dimensional "Coolcube" bacteriostatic microfiber top, for cool feel and quick drying performance while preventing chaffing and irritation. Three zones use strategically placed foam densities for ultimate comfort and support, ranging from medium high-density to ultra high-density foam.

**DURATION OF RIDE:
5+ HOURS**

MEN'S ANATOMIC FEATURES:

Sewn inserts provide a more anatomic fit and better stability in the saddle. The central channel is engineered for support and pressure relief in ischial and perineal areas, providing optimal blood flow.

PAD PROFILE AND DENSITY:

3mm thick perimeter zone with medium high-density 60kg/m³ foam, and 14mm thick dual density foam with strategically placed very high-density 80kg/m³ foam at the midsection and ultra high-density 120kg/m³ foam at the posterior, for optimal support and stability in the saddle.

MEN'S CHRONO EXPERT CYTECH CHAMOIS

Advanced technology and construction, designed to provide comfort and support for longer distance and off-road rides. Thermoformed open cell padding bonded with a three-dimensional "Coolcube" bacteriostatic microfiber top for a cool feel and quick drying performance while preventing chaffing and irritation. Three zones use strategically placed foam densities for comfort and support, ranging from very high-density to ultra high-density foam.

**DURATION OF RIDE:
UP TO 5 HOURS**

MEN'S ANATOMIC FEATURES:

A men's chamois with thermo molded inserts for a great fit with stability in the saddle. The central channel is engineered for support and pressure relief in ischial and perineal areas, providing increased blood flow.

PAD PROFILE AND DENSITY:

3mm thick perimeter zone with a very high-density 80kg/m³ foam, a 12mm thick insert zone with ultra high-density 120kg/m³ foam, plus a very high-density 80kg/m³ foam for enhanced support with stability in the saddle.

MEN'S CHRONO SPORT CYTECH CHAMOIS

A low profile design that provides supple, continuous contact with skin. Thermoformed open cell padding, bonded with a bacteriostatic, soft-brushed microfiber top. Two zones use strategically placed foam densities for comfort and support, ranging from high-density to very high-density foam.

**DURATION OF RIDE:
UP TO 3 HOURS**

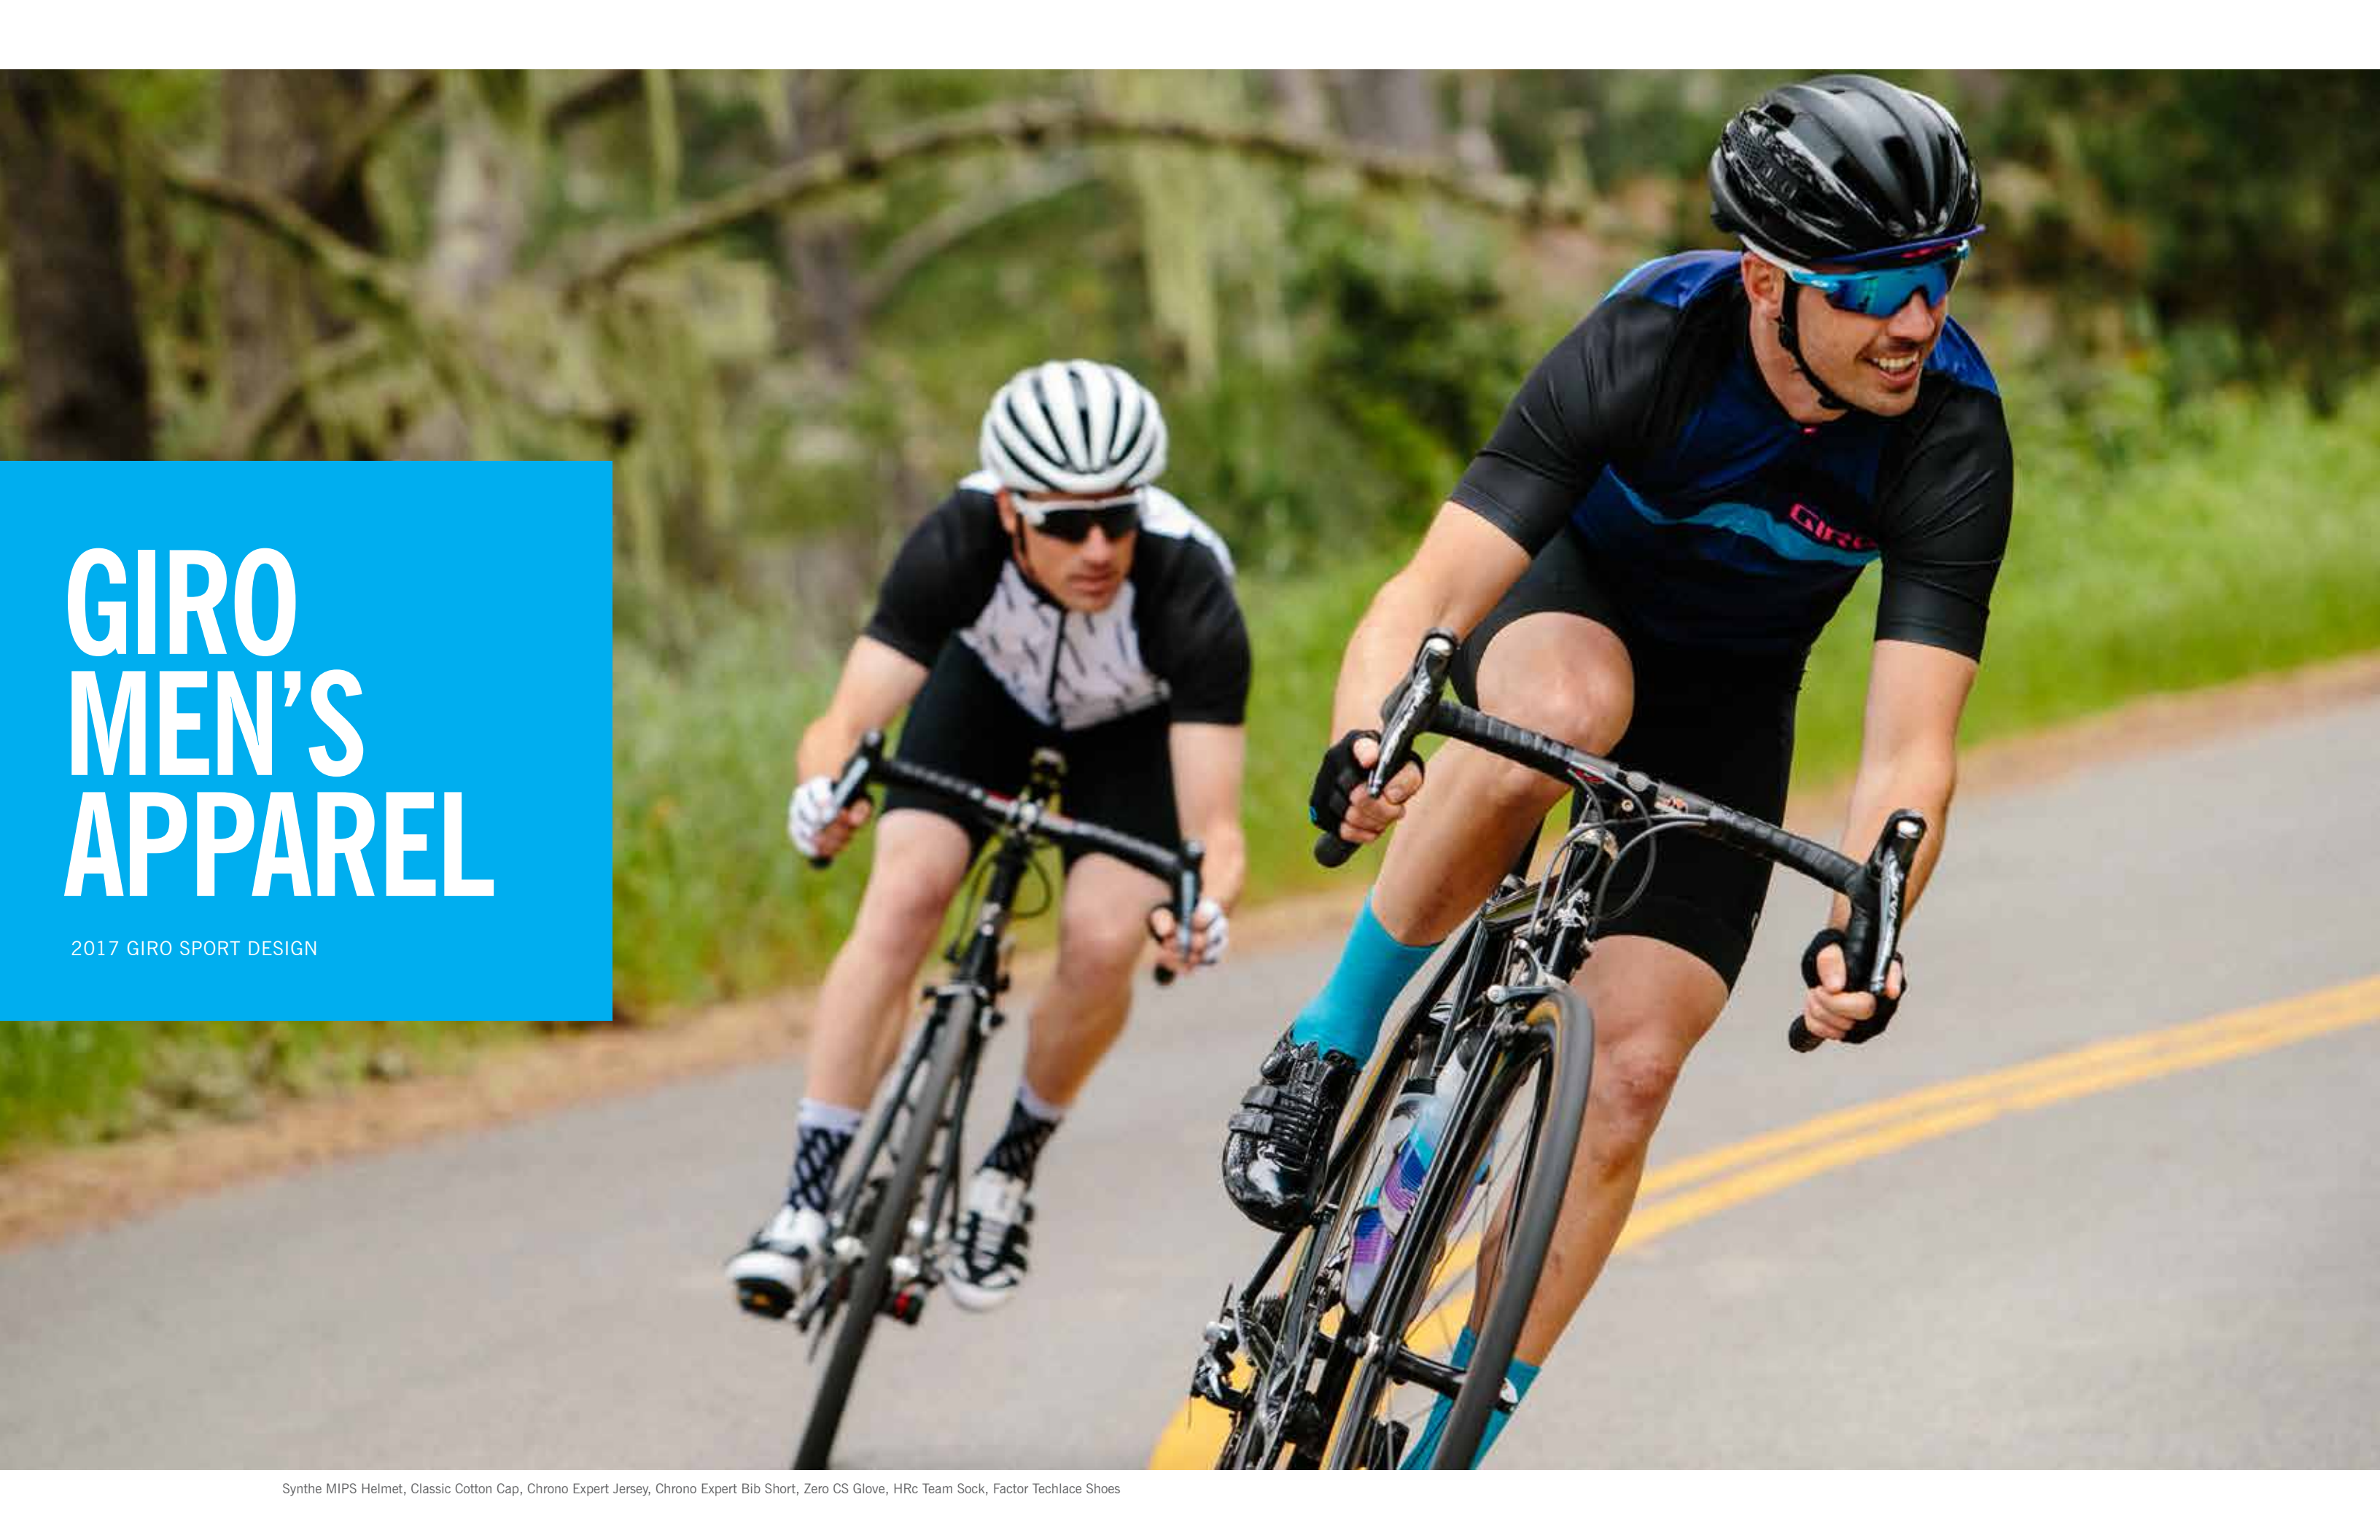

MEN'S ANATOMIC FEATURES:

This chamois is designed with a center channel on the underside and top for support, pressure relief and blood flow.

PAD PROFILE AND DENSITY:

3mm thick perimeter zone with very high-density 80kg/m³ foam, and 11mm thick insert zone with high-density 70kg/m³ foam for support and stability in the saddle.

CHRONO SPORT 1/2 ZIP JERSEY

GREAT PERFORMANCE, EVEN GREATER VALUE

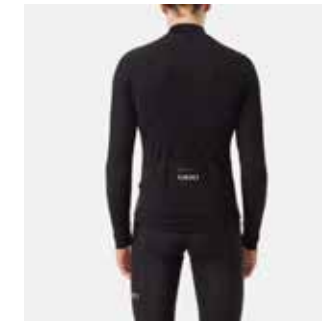

The Men's Chrono Sport ½ Zip Jersey offers essential performance for road riding in comfort. The polyester fabrication is stretchy for a comfortable, more relaxed fit, and it has moisture wicking properties to keep your skin dry and cool. A ½ zipper allows ventilation on long climbs under the hot sun; while three rear cargo pockets let you carry everything you need for your days in the saddle.

MEN'S

CHRONO PRO LS THERMAL JERSEY

THE ESSENTIAL CHOICE FOR COLDER TEMPS

This outstanding long sleeve jersey features a host of details to keep you going on the coldest days. By utilizing a brushed-back high loft Italian fabric, this jersey stretches and moves with you, and custom articulated cuffs fit snug and keep the cold out. Because cold weather riding often requires hauling extra cargo, we constructed ample-sized cargo pockets that expand when you need to store a rain jacket, gloves or extra calories to get you through long base miles. Reflective accents are the finishing touch on a jersey that will be in constant rotation for cold weather rides.

MEN'S

CHRONO SL BASE LAYER

ENHANCE YOUR RIDING EXPERIENCE

We believe a good base layer should enhance the riding experience, not distract from it. It should feel great against your skin, properly wick moisture and stretch for a fit that makes you forget you have it on. The lightweight engineered knit Men's Chrono SL Base Layer does just that. It features Wikpro™ fabric to ensure a soft feel, while pulling moisture away from your skin. It has enough stretch to allow freedom of movement and fit your body comfortably. It's also extremely light and tucks easily under a bib short without any bunching.

UNISEX

CHRONO LS BASE LAYER

THE MOST IMPORTANT LAYER FOR COLD WEATHER RIDING

The key to temperature regulation in cold weather is perspiration management. We designed the Chrono LS Base Layer with our proprietary Wikpro™ fabric to keep you warm, dry and comfortable in the coldest conditions. Wikpro is a proprietary blend of polyester and nylon knit that enhances moisture transfer while staying soft against the skin and providing great rebound and fit. This is the same fabric proven in our popular Chrono SL Base Layer, but constructed in a heavier weight for extra insulation. This next-to-skin garment is the foundation for a comfortable experience in the elements.

Detail

MEN'S

CHRONO PRO BIB SHORT

THE FINEST MATERIALS AND DESIGN AVAILABLE

The Men's Chrono Pro Bib Short is the result of over two years of exhaustive design, research and testing. The straps are custom stretch. They move effortlessly when you do, never fold or bunch, and lay flat against your shoulders and back. The leg bands are also custom designed to ensure the short stays comfortably in place. A stretch woven lumbar support panel provides essential support to your lower back for relief on long rides, and a radio pocket gives you storage for valuables. Premium Italian lycra provides ample compression and durability, and the chamois is anatomically shaped with varied zones of foam density to keep you comfortable all day.

MEN'S

HAVOC SHORT

BUILT FOR MODERN ENDURO

The demands of enduro racing keep pushing riders to test new limits, and their apparel needs to be up for the challenge. The Men's Havoc Short is built for the world of enduro, with details tailored for performance and durability. The 4-way stretch fabric moves with you for ultimate comfort whether climbing a long transfer or racing the clock down rugged descents. The length and leg opening are designed for compatibility with knee pads, but the fit remains stylishly tailored without being excessively baggy. Since some of the best mountain biking is in the summer under the hot sun, we've added perforated ventilation for superior airflow, helping riders stay cool in even the hottest competition.

MEN'S

ARC SHORT

THE ULTIMATE LIGHTWEIGHT SHORT

The Men's Arc Short is your go-to mountain bike short for fun days in the dirt. They are packed with the essentials you need, including a secure zip pocket, exterior waist adjustment, belt loops and hand pockets. The ripstop fabric is lightweight, durable and comfortable, but the best part about this fabric is that it's virtually silent on the bike. Why be distracted by loud fabrics when you just want to hear the sound of your tires connecting to the trail? Not to mention the sounds of you and your friends hooting and hollering down the best sections of trail.

CHRONO SPORT SHORT

PERFORMANCE MEETS AFFORDABILITY

A performance spandex short is an essential part of your riding wardrobe. To give you our best version of this essential item, we designed our Women's Chrono Sport Short to be ready for long-term use under demanding circumstances. The premium lycra provides compression to support working muscles, and the optimized foam of the chamois keeps you comfortable for hours on the saddle.

WOMEN'S

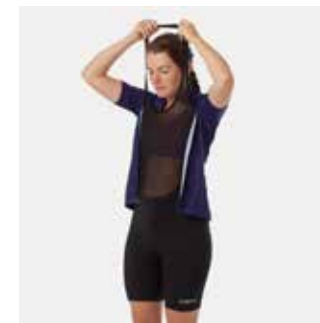

CHRONO EXPERT HALTER BIB SHORT

THE PERFORMANCE OF A BIB AND THE CONVENIENCE OF SHORTS

A great bib short is the best foundation for longer, faster rides. But bibs can also be a challenge when nature calls. That's why we engineered our Women's Chrono Expert Halter Bib Short with convenience in mind, so that you don't have to be Houdini when you need to make a stop. Simply remove the halter, pull down the bibs, and you're ready to go. You don't even need to unzip your jersey. We use premium Italian fabrics to ensure optimal compression and comfort, and tailored the fit so that each seam works with your body in motion. A storage pocket at the lower back provides freedom to choose your top layers too, so that you can keep going with confidence and style.

WOMEN'S

CHRONO SPORT HALTER BIB SHORT

JOIN THE HALTER REVOLUTION FOR COMFORT AND CONVENIENCE

When the original Chrono Expert Halter Bib Short was introduced, it revolutionized the way women thought of their cycling apparel. No longer did a bathroom break mean stripping down to practically nothing. Women finally could ride with the comfort of bibs and the convenience of shorts. This clever concept is now available in a more affordable Women's Chrono Sport Halter Bib Short, which features the same great halter design with a Chrono Sport Cytech Chamois and a stretchier, more forgiving fabric. With quality performance and incredible value, there's no excuse not to join the halter revolution.

WOMEN'S

ROUST JERSEY

BOLD STYLE FOR GIRLS WHO GET RAD

The Women's Roust Jersey features bold colors and graphics to match your style out on the trails. Looking for flowers and butterflies? Sorry, you won't find that here. Simply speaking, our women's graphic options are stylishly cool—and that's according to gals who not only get out there and ride, but drop guys along the way. These jerseys perform well, too. The polyester fabrication has wicking properties to keep your skin dry and cool, and an interior lens wipe allows you to quickly clean your goggles or glasses. The loose, relaxed fit is stylish and comfortable, featuring sleeves that hit above the elbow for compatibility with pads. When you want your jersey to be as rad as your riding style, you've met your match with the Roust.

WOMEN'S

XAR JERSEY

CLASSIC TRAIL STYLE

When you want to let your riding do all the talking, reach for the Women's Xar Jersey. Don't be fooled by the classic, understated style. This jersey is serious business when it comes to performance. The Polartec Power Dry fabric offers dependable wicking properties, faster dry times and superior performance that doesn't weaken with very wash. The mesh ventilation panels keep you cool on the trail, and the interior lens wipe allows you to quickly clean your goggles or glasses so you can get back to focusing on the ride.

WOMEN'S
ARC SHORT

FLATTERING FIT ON THE TRAIL

The Women's Arc Short is your go-to mountain bike short for fun days in the dirt. They offer a flattering fit, and they're packed with essentials including a secure zip pocket, exterior waist adjustment, belt loops and hand pockets. The ripstop fabric is lightweight, durable and comfortable, but the best part about this fabric is that it's virtually silent on the bike. Why be distracted by loud fabrics when you just want to hear the sound of your tires connecting to the trail?

WOMEN'S
TECH TEE

MORE THAN JUST A T-SHIRT

You can never have enough t-shirts, especially when the colors and graphics are as fun as these. Plus, this is more than just a t-shirt. The tri-blend is a technical fabric with wicking properties to keep your skin dry and cool, making this a great alternative to standard jerseys when hitting the trail. With a variety of bold colors and screen printed graphic options, you can now express your love of Giro whether on or off the bike.
